

SAFETY DATA SHEET

TITAN AIR FRESHENER & ODOUR CONTROL

Infosafe No.: 7EFH9
ISSUED Date : 10/06/2022
ISSUED by: JASOL AUSTRALIA

NOT CLASSIFIED AS HAZARDOUS

1. Identification

GHS Product Identifier

TITAN AIR FRESHENER & ODOUR CONTROL

Product Code

3000150

Company name

JASOL AUSTRALIA

Address

41-45 Tarnard Drive Braeside
VIC 3195 AUSTRALIA

Telephone/Fax Number

Tel: 03 95805722
Fax: 03 95809902

Emergency phone number

1800 629 953

Recommended use of the chemical and restrictions on use

Air freshener

Disclaimer

Jasol (a division of George Weston Foods Limited) believes the information in this document to be accurate as at the date of preparation noted in the header of the SDS, but to the maximum extent permitted by law, Jasol accepts no responsibility for any loss or damage caused by any person acting or refraining from action because of this information.

The provision of this information should not be construed by anyone as a recommendation to use this product. In particular, no one should use any product in violation of any patent or other intellectual proprietary rights or in breach of any statute or regulation.

Users should rely on their own knowledge and inquiries and make their own determination as to the applicability of this information in relation to their particular purposes and specific circumstances. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace and in conjunction with other substances or products.

2. Hazard Identification

GHS classification of the substance/mixture

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety Regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

3. Composition/information on ingredients

Ingredients

Name	CAS	Proportion
Ethanol	64-17-5	<5 %
Potassium Sorbate	24634-61-5	<0.5 %
Ingredients determined not to be hazardous		100 %

4. First-aid measures

Inhalation

If inhaled, remove affected person from contaminated area and keep at rest in a position comfortable for breathing. Keep at rest until recovered. If symptoms develop and / or persist seek medical attention.

Ingestion

Rinse mouth with water. Do not induce vomiting. Give a glass of water to be taken slowly. Seek medical advice.

Skin

If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

Eye contact

If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

First Aid Facilities

Eye wash station and normal washroom facilities.

Advice to Doctor

Product is a solution of surfactant and quaternary ammonium compound. Vomiting has not been induced because of risk of aspiration into the lungs. Treat symptomatically. Contact Poisons Information Centre.

5. Fire-fighting measures

Suitable Extinguishing Media

Use extinguishing media appropriate to surrounding fire. Use water spray to cool containers and surrounds.

Specific Hazards Arising From The Chemical

Not a fire hazard. Not an explosion hazard. Following evaporation of aqueous component under fire conditions, the non-aqueous components may decompose and/or burn.

Precautions in connection with Fire

Fire fighters should wear full protective clothing and self-contained apparatus (SCBA) operated in positive pressure mode. Fight fire from safe location.

6. Accidental release measures

Spills & Disposal

Wear appropriate protective clothing.

If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Wash site of spillage thoroughly with water. Ventilate area to dispel any residual vapours. Dispose of waste according to the applicable local and national regulations.

7. Handling and storage

Precautions for Safe Handling

Avoid inhalation of vapours and mists, and skin or eye contact. Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere. Maintain high standards of personal hygiene, i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.

Conditions for safe storage, including any incompatibilities

Store out of reach of children. Large quantities should be stored in a bunded area. Store in original container. Keep away from oxidising agents. Store in a cool, dry, well-ventilated area. Out of direct sunlight. Protect from physical damage. Protect from freezing. Clean up all spills and splashes promptly; avoid secondary accidents.

8. Exposure controls/personal protection

Occupational exposure limit values

No Exposure Limit Established

Other Exposure Information

No value assigned by the National Occupational Health and Safety Commission (Worksafe Australia).

Appropriate engineering controls

None required for normal use. If significant mists or vapours are produced, local exhaust ventilation should be used.

Respiratory Protection

If engineering controls are not effective in controlling airborne exposure then an approved respirator/mask with should be used. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices.

Eye Protection

Safety glasses with side shields or goggles should be worn as described in Australian Standard AS/ANZ 1337 - Eye Protectors for Industrial Applications.

If there is a potential for exposure to particles which could cause eye discomfort, wear chemical goggles.

Hand Protection

Impervious PVC or rubber gloves should be worn to avoid prolonged skin contact.

Chemical protective gloves should not be needed when handling this material. Consistent with general hygienic practice for any material, skin contact should be minimised.

Personal Protective Equipment

Avoid contact with the skin and eyes. Personal protection to be selected from those recommended below, as appropriate to mode of use, quantity handled and degree of hazard:-

Safety glasses

Gloves, rubber or plastic

Always maintain a high level of personal hygiene when using this product. That is wash hands before eating, drinking, smoking or using the toilet.

9. Physical and chemical properties

Properties	Description	Properties	Description
Form	Liquid	Odour	Citrus fresh fragrance
Boiling Point	Approx 100C	Solubility in Water	Miscible at all concentrations
Specific Gravity	1.00	pH	5.0-7.5
Vapour Pressure	11 mm Hg @ 20C	Volatile Component	>60%
Flash Point	N/a	Flammability	Not flammable

10. Stability and reactivity

Chemical Stability

Stable under normal use conditons.

Conditions to Avoid

Avoid heat, sparks, open flames and other ignition sources.

Incompatible materials

Incompatible with oxidising agents (eg hypochlorites) and acids (eg nitric acid).

Hazardous Decomposition Products

May evolve carbon oxides and hydrocarbons when heated to decomposition.

Possibility of hazardous reactions

Not available

Hazardous Polymerization

Not expected to occur.

11. Toxicological Information

Toxicology Information

Use safe work practices to avoid eye or skin contact and inhalation. Over exposure may result in irritation.

Ingestion

Ingestion may result in gastrointestinal irritation, nausea, vomiting, headache and diarrhoea. Oral LD 50(rat) > 5000 mg/kg.

Inhalation

Over exposure to vapours may result in irritation of the nose and throat, with coughing. High level exposure may result in dizziness, nausea and headache. Due to low vapour pressure, an inhalation hazard is not anticipated with normal use.

Skin

Contact may result in irritation, dermatitis, rash and redness.

Eye

Contact may result in irritation, lacrimation, pain and redness.

12. Ecological information

Ecological information

Not available

Persistence and degradability

Data not available

13. Disposal considerations

Waste Disposal

Dispose of according to relevant local, state and federal government regulations.

14. Transport information

Transport Information

Not regulated for transport of Dangerous Goods: ADG7, UN, IATA, IMDG

U.N. Number

None Allocated

UN proper shipping name

None Allocated

Transport hazard class(es)

None Allocated

15. Regulatory information

Regulatory information

Not classified as Hazardous according to criteria of Globally Harmonized System of classification and labelling of chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

Poisons Schedule

Not Scheduled

16. Other Information

Date of preparation or last revision of SDS

SDS reviewed: July 2017

SDS created: May 2017
